Istanbul, Turkey • [LinkedIn](#) • [Personal Website](#) • aradzn1.official@gmail.com

Professional Summary

Freshman Computer Science student at Sabancı University with a strong passion for AI, technology, and entrepreneurship. Co-founder of a digital agency, experienced in web development, Python, Flask, and project management. Eager to innovate and lead in the fields of AI and technology.

Projects

Encryptfy, Web Application Developer

- Engineered a secure web application using Python, integrating custom encryption and decryption algorithms that ensure zero data storage on servers, enhancing user privacy and data protection.
- Delivered a robust solution that combines high-level security with user-friendly design, safeguarding sensitive information without compromising performance.

GeoTurkey, Founder & Developer

- Developed a non-profit platform that visualizes the impact of earthquakes across Turkey, utilizing data analytics, interactive maps, and curated articles to raise public awareness.
- Launched an educational resource that effectively communicates the dangers of regional earthquakes, contributing to community safety and informed decision-making.

work experience

CO-Founder & COO, Pawands Digital Agency

May 2023 - Present

- Directed the development team and spearheaded project management, successfully delivering tailored digital solutions for 3 diverse clients, including small businesses and larger enterprises.
- Executed strategic sales initiatives, facilitated client negotiations, and led meetings, resulting in enhanced online presence and business growth for clients.

Full Stack Web Developer, Freelance

Jan 2023 - Jan 2024

- Designed and launched intuitive websites and applications for 6 clients, optimizing both desktop and mobile user experiences to drive engagement and functionality.

Certifications & Coursework

- Machine Learning – Duke University
- CS50: Introduction to Computer Science – Harvard University
- Calculus 1 & 2 – MIT
- Python 101 & 201 – Turkcell
- Generative AI - LinkedIn Learning
